

NAFEM 2019 - Essence Counter with Abstract Canopy

Essence™ **NEWLY designed Abstract Canopy with High Res Vinyl Panel Images**

Featured as Protein Power Bowl/Smoothie Station w/Basil Image Graphics

- Consultant-grade, heavy duty construction with channel base, built on a 100% stainless steel tubular body for structural integrity
- Our New Abstract Canopy design provides excellent station identify; with backlit panels containing high resolution graphic images (any artwork can be selected) (LCD Digital menu board by others)
- Counter prewired to a single-point electrical connection.
- Customizing capabilities to suit any counter size or design configuration
- Easily removable front & end panels provide convenient service access or refinish panels for décor update.
- Food shield design converts from service to self-service for service/menu flexibility
- Unique TIGHT LINK locking system channel locks units together with no warping or bending of counters eliminating gaps and uneven seams.
- Create your own concept using individual stations or combinations; we have the capability to do any length based on your specification.
